

**IN THE CLAIMS**

Claims 1-64 (canceled).

65. (New) A pharmaceutical composition comprising:

dalbavancin containing MAG in an amount of less than about 3 mole percent;  
at least one effective stabilizer;  
wherein the composition pH is about 3 to about 5;  
and wherein the composition is lyophilized.

66. (New) The composition of claim 65, wherein the dalbavancin contains MAG in an amount of less than about 2.5 mole percent.

67. (New) The composition of claim 65, wherein the dalbavancin contains MAG in an amount of less than about 2 mole percent.

68. (New) The composition of claim 67, wherein the composition pH is about 3.5 to 4.5.

69. (New) The composition of claim 68, wherein the stabilizer comprises at least one sugar.

70. (New) The composition of claim 69, wherein the dalbavancin contains about 85 to 96 mole percent B<sub>6</sub>.

71. (New) The composition of claim 65, wherein the dalbavancin contains MAG in an amount of less than about 1.5 mole percent.
